Hunter College has access to database subscriptions to aid in searching for information on funding. These databases contain data on public and private opportunities. The workshop will assist you in exploring the following:

**PIVOT**
Provides access to the most comprehensive global source of funding opportunities and identifies researcher expertise from within or outside of Hunter College from millions of profiles from leading research organizations worldwide.

**The Foundation Directory Online**
Provides access to an unprecedented wealth of timely, comprehensive information on grantmakers and their grants. Included is a database of the entire universe of over 96,000 foundations, corporate giving programs, and grantmaking public charities in the U.S.

Please RSVP to Sue Morales at smo0031@hunter.cuny.edu for this workshop.
