

HUNTER COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK

ANNUAL REPORT
OF
GRANTS AND CONTRACTS

July 1, 2006—June 30, 2007

Office of the President

Message from the President

We are pleased that Hunter College has been able to maintain a strong position in grant and contract awards at a time when colleges and universities are vying intensely for limited government resources.

The projects supported at Hunter span the intellectual and social horizon, from neuroscience, health research and social science research, to the development of curricula for language learning and mentoring the next generation of nurses, scientists, social workers and teachers.

Success in grant competitions is a measure of the expertise of our faculty, staff and students. I am pleased to congratulate everyone who has contributed to Hunter's record of success.

Opening Remarks

In the decade since the last comprehensive Middle States Association review, Hunter College has maintained an enviable record in grants and contracts which support a variety of research and academic programs. Hunter's total for fiscal year 2007 is more than 66% above the 1997 figure. Hunter has maintained a wonderful mix of grants, taking in virtually every discipline at the College.

Besides supporting a broad spectrum of research collaborations and numerous training programs, Hunter also has a rich blend of grants in faculty development, program development, and student support. Grant and contract awards employ more than 1,000 persons during the course of a year, many of whom are students. In addition, more than 500 students receive stipends or tuition support through grants.

Although this was a year in which our grant dollars dropped, we had a significant increase in the number of proposal submissions, which augurs well for future awards.

We acknowledge principal investigators and their staff members who write the proposals and deal with all aspects of that process, including reviewing the literature, obtaining the guidelines and RFPs, and attending bidders' conferences and project directors' meetings. Besides directing their awards, the successful applicants are filing progress and final reports, and meeting all the other requirements of their grant and contract awards. Many of our faculty members also participate in review committees – these faculty and staff provide their expertise in the service of their fields.

Our thanks also goes to the faculty, staff and community representatives who serve on the Institutional Review Boards, the Institutional Animal Care and Use Committee, and the Institutional Biohazards Committee.

Director's Remarks and Acknowledgement of Staff, 2006-2007

I am happy to acknowledge all of those faculty and staff who have applied for funding and congratulate those who have received awards. Electronic proposal transmission is now a requirement at many agencies, and the CUNY Research Foundation has moved heavily into electronic research administration. The staff of Research Administration joins me in saluting all who make the extra effort to deal with the electronic requirements in a timely manner.

CUNY recognizes grants originating at Hunter in its statistics. For more than two decades, Hunter has been a strong second to the City College of New York. In fact, in several recent years Hunter edged ahead of CCNY for the top spot among the CUNY colleges, but CCNY led again in 2006-2007.

Faculty and staff also received individual awards and participated in a variety of CUNY grants and projects with non-CUNY collaborators at a level of approximately \$4.5 million. Totaling everything, funding from sources outside CUNY flowing through Hunter topped \$38.5 million in 2006-2007. The drop in funding from the prior year is attributable to a number of factors, including the increasingly strong competition for federal dollars, the retirement and departure of several funded faculty members and the completion of several major federal grants.

I wish to thank the members of the staff of the Office of Research Administration and the Institutional Review Board (IRB) Office for their work throughout the year and their participation in compiling this report:

Carolynn Julien	Associate Director and IRB Coordinator <i>(and responsible for the graphics in this report)</i>
Barbara Medina-Garcia	Assistant Director for Project Personnel
Anmarie Rivera	Assistant Director for Sponsored Projects and IACUC Staff Person
Malini Lall	Assistant IRB Coordinator
Tara Smith	Administrative Assistant for Regulatory Affairs
Karlene Roberts	Administrative Assistant for Project Personnel
Amanda Howard	Undergraduate Student Assistant (graduated 6/1/07)
Nancy Igwe	Undergraduate Student Assistant
Yiciana Rodriguez	Undergraduate Student Assistant (graduated 6/1/07)
Sarah Leon	Undergraduate Student Assistant - IRB.

We also recognize **Jean Willis**, Hunter's Payroll Supervisor, and her office, which processed grant-supported summer salaries on more than 150 Hunter faculty members in 2007. Our thanks and best wishes to **Jerome Richardson**, Field Services Representative of the CUNY Research Foundation, who has moved to Hunter's Schools of the Health Professions, and to the staff members at the central office of the Research Foundation of CUNY who handle the documents, both paper and electronic, for approximately one thousand persons who work on Hunter projects during the course of a year. Congratulations to Amanda Howard and Yiciana Rodriguez who graduated and moved into full-time positions, and to Malini Lall who recently left our employ after 13½ years to accept a position at Columbia University. Thanks also to my wife, **Lillian**, for contributing her time for consulting on the database in use for maintaining our grant histories.

Additional Acknowledgements

On behalf of the Hunter research community, we extend our gratitude to the members of the two IRBs, the IACUC, and the IBC which meet at least ten times a year to review research protocols involving human subjects, animals, and biosafety issues. These committee members have also been called upon in emergencies to review protocols, either in person or via conference call.

IRB reviews are conducted in compliance with regulations promulgated by the U. S. Office of Human Research Protections. This Committee must review all research protocols involving human subjects. During this past fiscal year, approximately 420 protocols were reviewed. The persons who served between July 1, 2006 and June 30, 2007 were the following:

Institutional Review Board (IRB)

(also known as the Committee for the Protection of Human Subjects from Research Risks:)

SECTION I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies for Federal, State and City government, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning with Fiscal Year 1983. Grants and contracts have undergone remarkable growth during this period.

SECTION I-B – Individual Project Listing

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2007 (July 1, 2006 – June 30, 2007). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. We generally only count the portion available to the Hunter collaborator.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. 'Type' indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the 'status' gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

SECTION I-C: PROPOSAL SUBMISSIONS

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the funding authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2007 Hunter College had 715 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

*Some applicants submit the same proposal to more than one agency – these proposals are counted separately.
Others submit different proposals to one or more agencies.*

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

PART II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

Section II-A PSC-CUNY Research Award Program

Section II-B Other Internal Support

SECTION II-A – PSC-CUNY Research Award Program

The Board of Trustees of the City University of New York and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants for the most recent competition could request a maximum of \$6,000 for research support. Proposals are peer reviewed by one of more than 30 disciplinary panels.

In the 38 years of the PSC-CUNY Research Award Program, Hunter College faculty and staff have been awarded more than 2,598 grants valued at more than \$12.6 million. Grants are designed to encourage research and sometimes serve as pilot and seed money for larger endeavors.

The following pages of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

PART III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Total of External and Internal Funding

OVERALL SUMMARY OF PROJECT SUPPORT

At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.
