

HUNTER COLLEGE

OF THE
CITY UNIVERSITY OF NEW YORK

ANNUAL REPORT
OF
GRANTS AND CONTRACTS

July 1, 2007—June 30, 2008

Office of the President

Message from the President

Grants and contracts support a myriad of activities throughout Hunter College from faculty scholarship to student opportunities to research infrastructure. All schools and virtually all disciplines at Hunter College have become beneficiaries of external grant funding.

We are pleased to report that, even in these difficult economic times, grant and contract awards to Hunter College rose by 7.8% in 2007-08. Faculty scholarship supported by these awards contributed greatly to Hunter's recent ranking as one of *The Princeton Review's* top ten "Best Value" colleges among public institutions nationally.

Congratulations to everyone who had a part in this record of success.

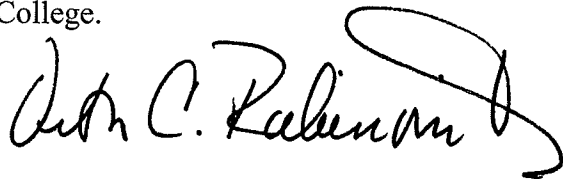

Jennifer J. Kaab

Opening Remarks

Hunter faculty had a characteristically strong year in attracting extramural funding. Grant totals rebounded in 2007-2008, with a 7.75% increase in award funds over the previous year. This record of success is particularly important in a year in which we are undergoing comprehensive reviews by the Middle States Commission on Higher Education, the National Council for Accreditation of Teacher Education, the Council on Social Work Education, and the Commission on Collegiate Nursing Education.

We are particularly delighted that recently recruited faculty members are bringing significant new streams of funding to complement the awards to veteran faculty. We salute all those faculty and staff members who take the lead in preparing proposals. It is hard to overestimate the amount of expertise, skill, discipline and effort that go into the submission of competitive grant proposals.

I want to take this opportunity to thank the faculty, staff, and community representatives who serve on the Institutional Review Boards, the Institutional Animal Care and Use Committee, and the Institutional Biohazards Committee, all of which play a significant role in maintaining research integrity and supporting the research enterprise at Hunter College.

Vita C. Rabinowitz
Provost & Vice President for Academic Affairs

Director's Remarks and Acknowledgement of Staff, 2007-2008

We extend our appreciation to all of those faculty and staff who are weathering the upgrades and glitches with the federal electronic grant proposal system. Despite these obstacles, many have continued to apply for funding. We congratulate those who have received awards. The staff of Research Administration joins me in especially saluting all who make the extra effort to deal with the electronic requirements in a timely manner.

CUNY recognizes grants originating at Hunter in its statistics, as well as collaborations by our faculty with colleagues at other institutions, both inside and outside CUNY.

In our report, we also include faculty and staff who received individual awards and participated in a variety of grants awarded to CUNY, along with State-supported programs and projects with non-CUNY collaborators. Totaling everything, funding from sources outside CUNY flowing through Hunter topped \$41.5 million in 2007-2008.

This report would not be possible without the year-round work of the staff of the Office of Research Administration (**Barbara Medina-Garcia, Annmarie Rivera, and Karlene Roberts**) and our colleagues who staff the Institutional Review Board Office (**Carolynn Julien**, IRB Coordinator, and **Amanda Howard**). Carolynn joins me in recognizing our part-time staff (**Janet Echeverry, Nancy Igwe and Royell Sullivan** in Research Administration, and **Sarah Leon and Wankairys Decena** in the IRB Office). We also acknowledge Tara Smith who has recently left Hunter after eight years to pursue an opportunity in the CUNY Office of Research Conduct.

We also recognize **Jean Willis**, Hunter's Payroll Supervisor, and her office, which processed grant-supported summer salaries on more than 150 Hunter faculty members in 2008.

Thanks also to my wife, **Lillian**, for contributing her time for consulting on the database in use for maintaining our grant histories.

April, 2009

Robert J. Buckley, Director

Additional Acknowledgements

On behalf of the Hunter research community, we extend our gratitude to the members of the two Institutional Review Boards (IRBs) and the Institutional Animal Care and Use Committee (IACUC) which meet at least ten times a year to review research protocols involving human subjects and animals. We also extend our appreciation to the Institutional Biosafety Committee. In addition to regularly scheduled meetings, committee members have also been called upon in emergencies to review protocols, either in person or via conference call.

IRB reviews are conducted in compliance with regulations promulgated by the U. S. Office of Human Research Protections. This Committee must review all research protocols involving human subjects whether a project is funded or not. During this past fiscal year, more than 420 protocols were reviewed. The persons who served between July 1, 2007 and June 30, 2008 were the following:

SUMMARY OF GRANTS AND CONTRACTS FROM EXTERNAL SOURCES

This part is divided into three sections:

Section I-A Overview of External Funding

Section I-B Individual Project Listing

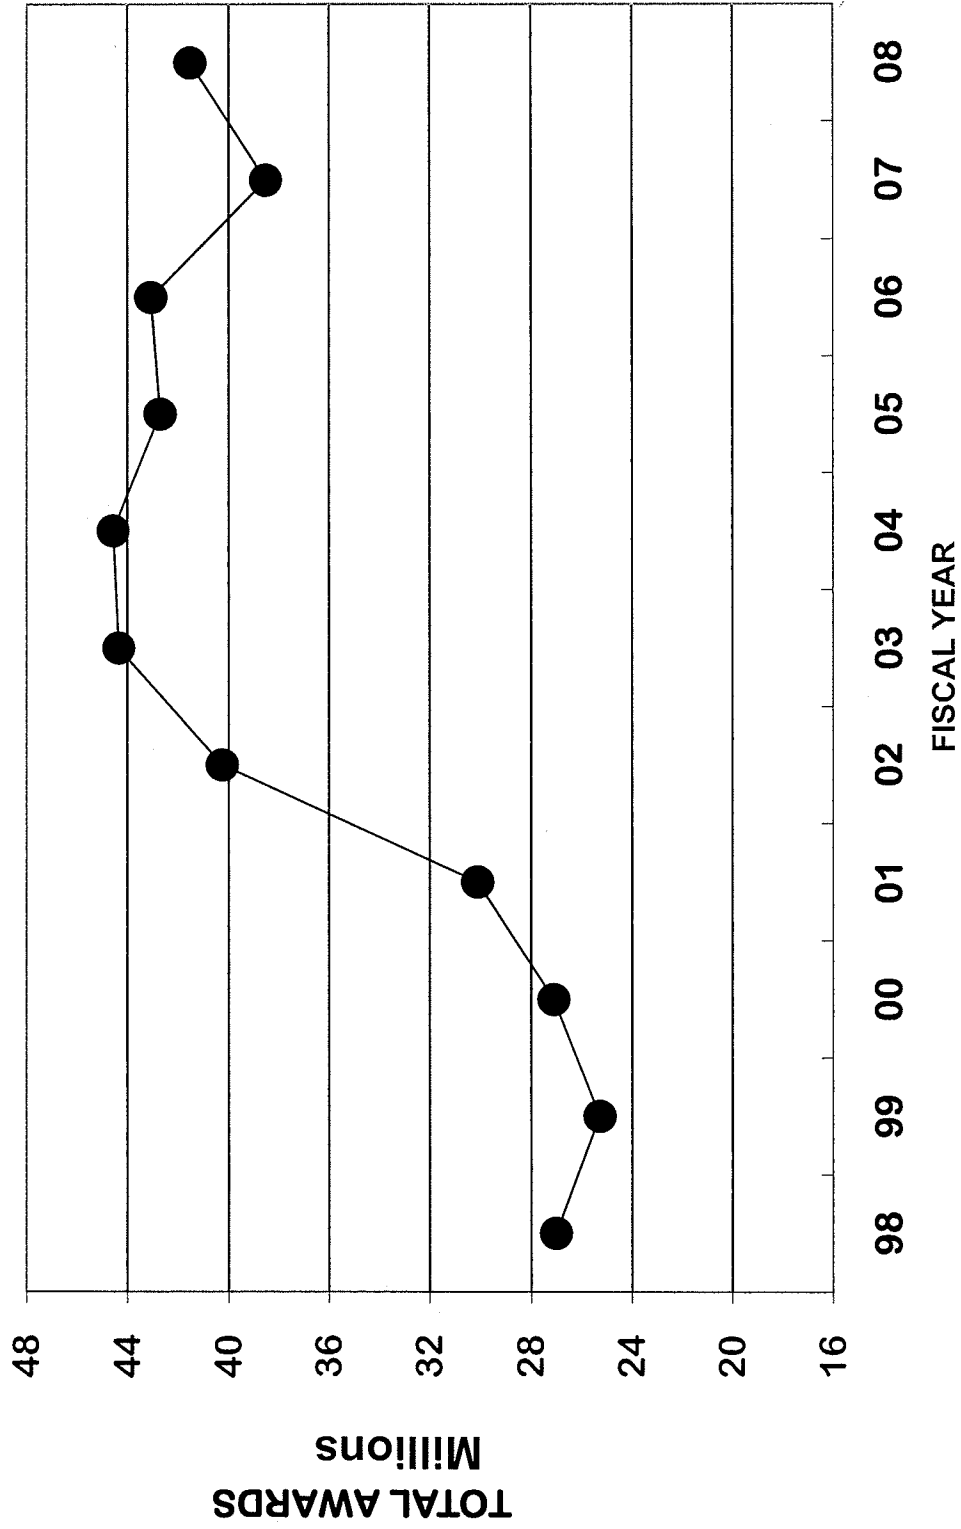

Section I-C Proposal Submissions

SECTION I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies for Federal, State and City government, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning with Fiscal Year 1983. Grants and contracts have undergone remarkable growth during this period.

PURPOSES OF FEDERAL SUPPORT - FISCAL YEAR 2008

SECTION I-B – Individual Project Listing

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2008 (July 1, 2007 – June 30, 2008). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. We generally only count the portion of funds available to the Hunter collaborator.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. 'Type' indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the 'status' gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

SECTION I-C: PROPOSAL SUBMISSIONS

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the funding authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2008 Hunter College had 728 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

*Some applicants submit the same proposal to more than one agency -- these proposals are counted separately.
Others submit different proposals to one or more agencies.*

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

PART II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

Section II-A PSC-CUNY Research Award Program

Section II-B Other Internal Support

SECTION II-A – PSC-CUNY Research Award Program

The Board of Trustees of the City University of New York and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants for the most recent competition could request a maximum of \$6,000 for research support. Proposals are peer reviewed by one of more than 30 disciplinary panels.

In the 39 years of the PSC-CUNY Research Award Program, Hunter College faculty and staff have been awarded 2,695 grants valued at more than \$13 million. Grants are designed to encourage research and sometimes serve as pilot and seed money for larger endeavors.

The following pages of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

PART III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Total of External and Internal Funding

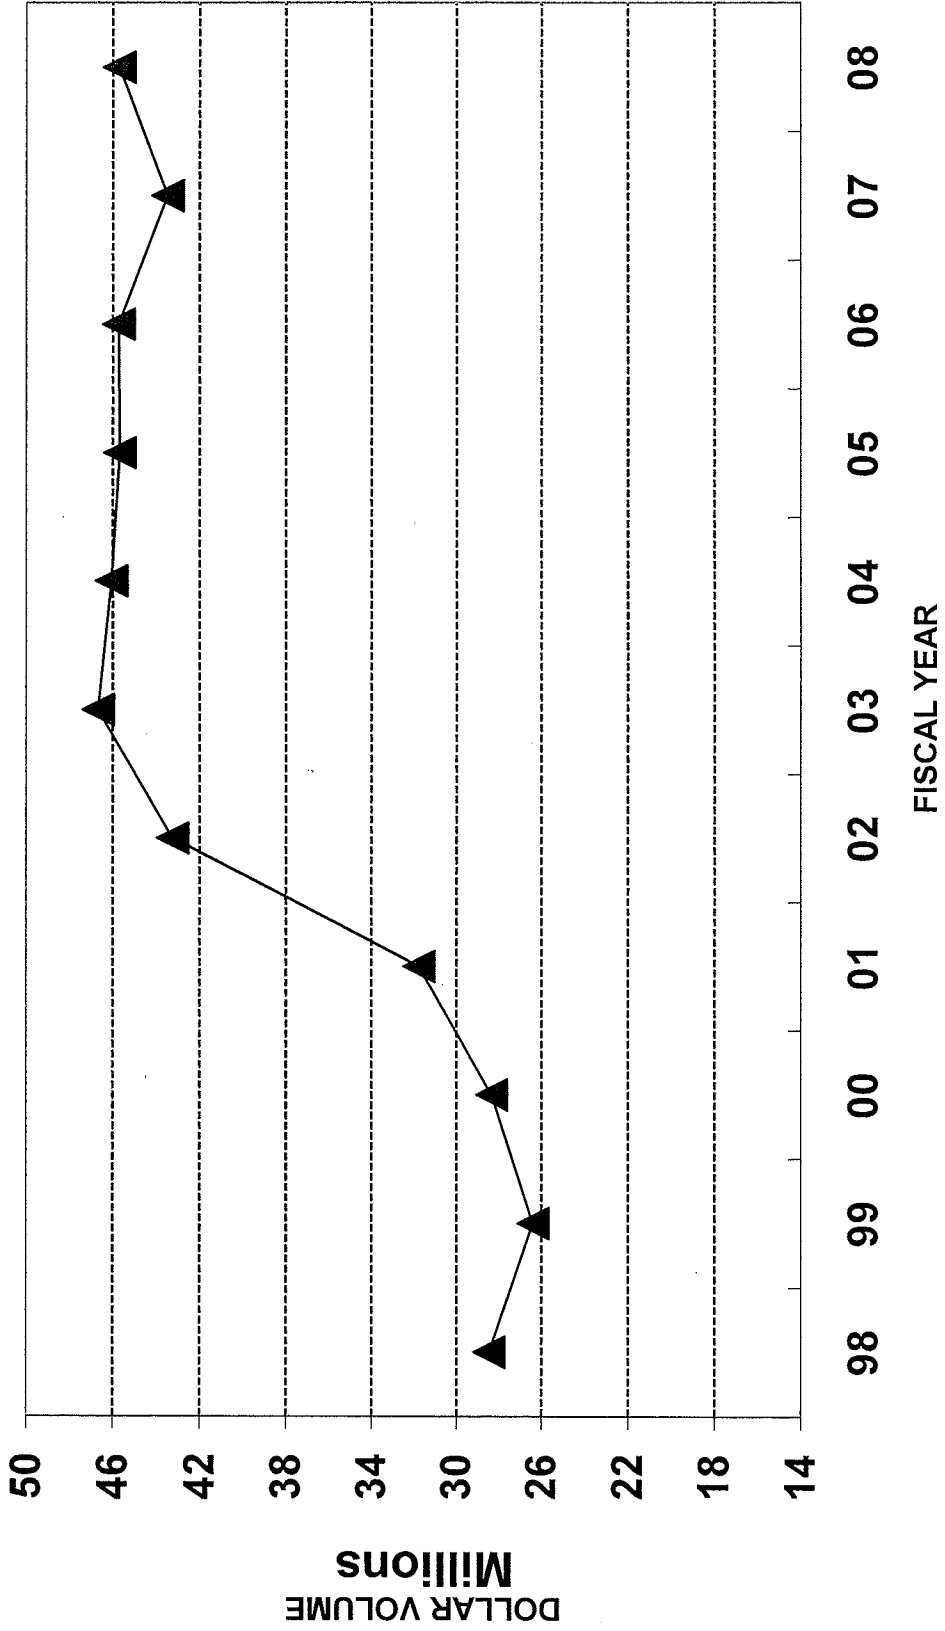

OVERALL SUMMARY OF PROJECT SUPPORT

At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.
