The Compton Foundation has adopted a new mission: "We ignite change. We support transformative leadership and courageous storytelling, inspiring action toward a peaceful, just, sustainable future." The status quo is not shifting rapidly enough toward a peaceful, just, and sustainable world. The Foundation's new mission highlights a sense of urgency and a willingness to take risks in order to transform the way we live. Bringing forth a positive future requires innovative ways of understanding and naming the problems we face, as well as new methods for collaborating to solve them. Implicit in the mission is support for progressive and democratic social change. Change requires both long-term movement building and the ability to respond quickly to opportunistic moments when transformation and/or real short-term gains are possible. The Foundation will support
