

COS INTRODUCES PIVOT:

THE NEXT GENERATION OF FUNDING AND RESEARCH EXPERTISE – CONNECTED.

We're excited to let you know that Hunter College recently gained access to the funding opportunities database **Pivot**. **Pivot** replaces *COS Funding Opportunities*. **Pivot** is a tool that merges the *COS Funding Opportunities* and *COS Expertise* profile databases. The subscription, which is paid by the Research Foundation, is available to all CUNY colleges. **Pivot** may be used by faculty, staff and students.

Log on at <http://pivot.cos.com> to start taking advantage of all that **Pivot** offers. See how searches, receiving funding alerts, and connecting with collaborators can turn into success with **Pivot**.

Pivot focuses on what matters most to you: the ability to identify and connect with funding opportunities and with other researchers—locally and globally. It combines the most comprehensive, editorially maintained database of funding opportunities worth an estimated \$33 billion with a unique database of 3 million scholar profiles—and growing.

We have several workshops throughout the year on **Pivot**. Please ensure that you are on our ResearchAdmin-L listserv to obtain information about the latest workshops. Workshop information can also be found on our website at <http://research.hunter.cuny.edu/Workshops.htm>
