Most grants in the 40th annual competition were announced on April 15. If you are an awardee, congratulations! If you have human subjects or animals, remember your grant account cannot be activated until you have approval from the appropriate committee. Submit your protocols as soon as possible to the appropriate committee.

If you received a PSC-CUNY grant last year and if your project involves human subjects or animals, remember that the approval of your protocol is only good for one year, and you must apply for renewal of that approval for an additional year. Without the approval, work on the project must stop, and no bills incurred during the hiatus period from the time the approval expired and the new approval was processed will be paid.

Also, if you have a PSC-CUNY grant that is scheduled to expire on June 30, 2009, if you need additional time, you must apply for a six-month extension by emailing Paul_Cole@rfcuny.org.

**AMERICAN RECOVERY AND REINVESTMENT ACT GRANTS**

Under the federal economic stimulus, there are numerous grant opportunities which vary from agency to agency. If you decide to apply for any federal grants or supplements to existing grants, be aware that colleagues at Hunter and faculty at many other institutions will all be applying at the same time as you apply, bringing electronic proposal submission to a crawl. A word to the wise: don’t wait for the deadline date—plan to submit your proposal early.

**WILLIAM T. GRANT SCHOLARS PROGRAM**

**DUE:** July 8, nominations

**WRITE:** William T. Grant Scholars Program

William T. Grant Foundation

570 Lexington Avenue, 18th Floor

New York, NY 10022-6837

**WEB:** http://wtgrantfoundation.org/info-url5243/info-url_show.htm?doc_id=646416

**E-MAIL:** info@wtgrantfdn.org

**PHONE:** 212 752-0071

**FAX:** 212 752-1398

The William T. Grant Scholars Program supports promising early-career researchers from diverse disciplines. The award is designed for early-career scholars who have demonstrated success in conducting high-quality research and are seeking to further develop their expertise. Stipends on high potential scholars should contribute to theory, policy, and practice in the area of improving youth settings. Candidates are nominated by a supporting institution and must submit five-year research plans that demonstrate creativity, intellectual rigor, and a commitment to continued professional development. To be eligible for consideration, Scholars must: (a) Be employed at a nonprofit institution, either in the United States or abroad; (b) Submit a proposal that is consistent with the Foundation’s Current Research Interests; and (c) Have received their terminal degree within seven years of submitting their application. Every year, four to six William T. Grant Scholars are selected and each receives $350,000 distributed over a five-year period.

**JUVENILE DIABETES RESEARCH FOUNDATION INTERNATIONAL**

**REGULAR RESEARCH GRANTS**

**DUE:** July 15

**WRITE:** Juvenile Diabetes Research Foundation International

Grant Administrator

120 Wall Street, 19th Floor

New York, NY 10005

**WEB:** http://www.jdrf.org/index.cfm?pag_id=103207

**E-MAIL:** info@jdrf.org

**PHONE:** 800 533-2873

**FAX:** 212 785-9595

The purpose of the Regular Research Grant mechanism is to provide investigators with support to explore the feasibility and development of proposals that are considered to be on the leading edge of diabetes research and that address the JDRF research emphasis areas. Proposals that have the potential to impact the current state of diabetes research or that clearly lead to avenues of therapeutic benefit are major considerations for the Regular Research Grant. Also of merit are exploratory proposals that may or may not have sufficient preliminary data but have a sound research development plan that is considered to be of high priority to the JDRF. The Regular Research Grant mechanism is specifically intended to support innovative proposals that can be developed to a level of maturity where generated data strengthens future research project or grant applications for ongoing support. Applications may be submitted by domestic and foreign nonprofit organizations, public and private, including universities, colleges, hospitals, laboratories, units of state and local governments, and eligible agencies of the federal government. Applicants must hold an M.D., D.M.D., D.V.M., Ph.D., or equivalent and have a faculty position or equivalent at a college, university, medical school, or other research facility. There are no citizenship requirements for this program. JDRF Regular Research Grants will be supported for a maximum of $165,000 total costs per year for a period up to 3 years. Indirect costs cannot exceed 10 percent of direct costs. In general, these grants are not renewable after 3 years. However, in rare instances (e.g., where NIH or other funding is not available) support beyond 3 years will be considered based on a competitive review of the accomplishments and future plans.

**W.K. KELLOGG FOUNDATION GRANT PROGRAMS**

**DUE:** anytime

**WRITE:** W.K. Kellogg Foundation

One Michigan Avenue East

Battle Creek, MI 49017-4012

**WEB:** http://www.wkkf.org/

**PHONE:** 269 968-1611

**FAX:** 269 968-0413

The Kellogg Foundation makes grants to organizations that embrace a similar mission of creating communities, systems, and nations in which all children have an equitable and promising future—one in which all children thrive. Grants will fund programs and projects that support children, families, and communities as they strengthen and create conditions that propel children to achieve success as individuals and as contributors to the larger community and society. The Foundation is committed to providing grants to a wide range of public, private, and collaborating organizations that share this commitment and whose work does one or more of the following: (a) Implements practical solutions; (b) Discovers new approaches; (c) Holds promise for wider application. The Foundation awards the majority of its grants to tax-exempt organizations in the United States. The Kellogg Foundation received over $3.5 million in grants during its fiscal year (September 2007 to August 2008) and made 677 new grants, totaling $298,000,000.
